ABOUT TERMS, HOW BEST TO ORDER AND REMIT, ETC.

All Goods offered in this Catalogue are subject to being unsold on receipt of order, and we reserve the privilege of advancing prices without notice

Remittances should be made either in the form of an **Express Money Order**, (which is the best and safest method of remitting), or a **P. O. Money Order, Bank Draft or Registered Letter**.

If goods are wanted **C.O.D.**, 25 per cent. of the amount must accompany the order. Such orders can only be sent by express.

Orders from unknown correspondents, without remittance, should be accompanied by New York City references, to save delay.

When goods are ordered from both seed and greenhouse establishments, we always combine, where practicable, the orders and make one shipment.

Terms: The prices quoted in this Wholesale Catalogue are subject to no further discounts excepting for cash as noted below. To parties of approved credit, accounts are payable net on June 1st and December 1st, for goods invoiced between these dates or 5 per cent. can be deducted for payment within 30 days from date of invoice—or for remittance with the order. It is, however, distinctly understood that Potatoes, Onion Sets, Grass, Grain Clover and Bird Seeds, Tools and Implements of all kinds, Fertilizers and Insecticides are not subject to any discount and are sold strictly *net cash*.

WHEN WE EXECUTE ORDERS.

Every order is filled immediately on arrival, or is acknowledged if under rare circumstances, its shipment is likely to be delayed for a day or two. If goods, notification of shipment or acknowledgment of order is not received by the customer after a reasonable lapse of time, it may be assumed that the order has miscarried, or that the name or address was

omitted from the order. We will, when notified of such a case, use our best efforts to trace it without delay.

Give full shipping instructions on each and every order you send. To avoid chance of error, never write letters on the same sheet as your order.

We fill orders of all values from the smallest to the largest, and all receive the same careful and prompt attention.

ABOUT PACKING AND SHIPPING.

We make no charge for packing, cases, baskets, packages or barrels, and pack as lightly as possible, consistent with safety, so as to reduce the cost of carriage when paid by purchaser. In fact, we assume extra expense in supplying light, strong cases, and, where possible, we pack in baskets covered with waterproof covers, which greatly reduces weight.

Cloth bags only we charge for, and these at cost, viz.: 1 peck, 10c; ½ bush., 12c.; 1 bush., 5c.; 2 bush., 20c. All grass seed bags, excepting bags for Timothy and Clover, are furnished free.

Special packing of seeds for foreign shipments, when necessary, in lined cases or double sacks we charge for at cost.

We make no charge for cartage or delivery of goods to any railroad station, steamship line or express office in New York City.

The safe arrival is guaranteed of all goods sent by express to any part of the United States or Canada. We ship plants at all seasons of the year, even in the coldest weather.

When shipped by freight we deliver all bulbs and roots properly packed and in good condition, into the hands of transportation companies. After that our responsibility ceases. Consignee then assumes all risks of heat, freezing and delays.

Special Notice

- ▲ While we exercise the greatest care to have all Seeds, Plants and Bulbs pure and reliable, we do not give any warranty, express or implied. If the purchaser does not except the goods on these conditions, they must be returned at once, and the money that has been paid for same will be refunded.

Our Red Trade Mark

EVERY PACKAGE of our Seeds, large or small, will bear our RED Trade Mark, a fac-simile of which is here shown.

SPECIAL IN REGARD TO THE SALE AND SHIPMENT OF PLANTS.

All plants sent by express, unless specially ordered otherwise.

Plants will be sent by freight if requested, but at purchaser's risk. Plants will be sent by mail if so ordered, and it is practicable to do so, but only at an advance of twenty-five per cent. on the prices quoted.

The plants are offered in this list at the rates per 100, provided (except where they are otherwise offered) that not less than five of each class or

variety are taken, nor in less amounts than three dollars for the total value of the order.

The varieties must be our own selection of sorts, unless otherwise offered. Any one wanting special kinds, not offered in this wholesale list, can order from our retail Descriptive Catalogue (The Manual of Everything for the Garden), at the prices quoted therein, from which we allow a discount of one-third.

We have secured for our customers from EXPRESS COMPANIES . . .

20 Per Cent.

Reduction in Express Rates on Plants.

Under the new ruling of the leading Express Companies, advocated and secured by us, plants packed in closed boxes or baskets, will now be carried at the "General Specials" rate. This rate means a reduction of 20 per cent. from the regular merchandise rates to all points where no "General Special" exists. To points where a "General Specials" rate is in force the companies made a special reduction. Shipments weighing less than 100 lbs. receive the benefit of the rate per 100 lbs., but the minimum charge is 35c. For instance, where the regular merchandise rate is \$4.00 per 100 lbs., a box of plants weighing 100 lbs. will be carried for \$3.20, a saving of 80c. on one shipment.

Have Your Plants . . .

Sent by Express.

They will reach you quicker and in better condition than by any other way.

Hyacinths, "Dutch" Romans.

These are growing in favor among forcers, to follow the more expensive French Romans. Bulbs average 1½ to 1¾ inches in diameter, or 4½ inches in circumference, but they throw very fine spikes of bloom properly forced, to come in not before January. The small bulbs of some varieties are far superior to others. We have carefully experimented and selected the varieties we send out as being very satisfactory for florists.

HENDERSON'S SPECIAL BEDDING AND FORCING HYACINTHS.

The bulbs under this heading are of a much larger size than those put in ordinary mixtures; in fact they are the second selection from Named Sorts. They will produce grand spikes of bloom, and the different sorts, as offered below, all being of one shade of color and all blooming at one time, render them of great value for forcing or bedding out, especially in designs, enabling one to secure the exact color effect desired, which is a great advantage over mixed reds, mixed blues, etc., at but a slight advance in price.

FREESIA.

**FREESIA
REFRACTA ALBA.**

(Ready for Shipment in July.)

We will have a large crop of extra fine bulbs to offer this season. We now sell annually 1,000,000 of these bulbs to florists for forcing for cut flowers, our bulbs being unusual fine. Freesias produce six to eight flowers upon a stem. Are very handsome, possessing a peculiar grace of form. As cut flowers, they are extremely valuable; the unexpanded flowers open in water, fill the air with a most delicate perfume, and their endurance is really remarkable. They force very easily and should be started in succession from the end of July. Flowers pure white, with yellow blotch on lower petals. (See cut.)

IRIS KÄMPFERI.

SPANISH IRIS
 FOR FORCING.

THESE almost equal orchids in beauty of coloring and delicacy of perfume—the flowers are of great beauty and cut in the bud state, last from one to two weeks in bloom—longer than any other cut Iris. One root bears one stem bearing two flowers in succession a week apart; the faded flower does not show a mark on the stem when removed. All growers of cut flowers should try these this season; they are low priced, and if planted in boxes and placed in cold frames until they show bud, then bring into heat they can be had in bloom from March on, and will give great satisfaction.

"POMPADOUR" PÆONIA.

SPIREA
Astilboides Floribunda.

THIS new variety is a great improvement over Spirea Japonica. The flowers are borne in large, feathery panicles of purest white, and last a long time in bloom. It is dwarfer in habit, earlier and more profuse in bloom. This is undoubtedly one of the most beautiful and graceful subjects grown, its foliage and flowers combined making it one of the finest gems for winter and spring decoration in the house and conservatory, while for grace and elegance as a cut flower it is unequalled. The few florists who have tried it are enthusiastic in its praise.

HENDERSON'S . . . HIGH GRADE EASTER LILY BULBS.

We advise all forcers of lilies to divide their orders this year between Bermuda Easter Lily Bulbs and Japan Easter Lily Bulbs. Take the Bermudas for early forcing, and Japan stock for late forcing. There will be such a small crop of Bermuda Bulbs (from one-third to one-half of the usual crop), that prices have advanced very much.

Henderson's ^{HIGH} GRADE

Bermuda Easter Lily Bulbs.

(*L. Longiflorum* Var. *Harrisii*.)

	Doz.	per 100	per 1000.
Second Size Bulbs. (5 to 7 inches in circumference.)	\$0 60	\$4 00	\$37 00
First Size Bulbs. (7 to 9 inches in circumference.)	1 25	8 00	75 00
Extra Size Bulbs. (9 to 11 inches in circumference.)	2 75	20 00

The TRUE Bermuda Easter Lily is our Great Specialty. We were the pioneer introducers of it and have always been "Headquarters," supplying the trade generally and the large dealers both in Europe and America.

Our Stock is True and Unmixed. Our strict selection for years secures true and unmixed stock. Growers cannot afford to force stock mixed with Longiflorums, even though the bulbs were given to them, as they would flower so irregularly as to occupy a bench the whole winter.

We wish to lay particular stress upon the size and quality of our Bulbs which are larger, healthier and better than those usually sold—for the reason that no expense is spared in manuring and cultivating. Experience having shown us that bulbs so treated are incomparably superior to bulbs grown on impoverished and unfertilized land year after year, which constitutionally weakens the bulbs and they give results accordingly. This is the general practice—especially among those who endeavor to grow cheaply—to enable them to undersell.

The so-called Bermuda Lily disease is primarily the result of reduced vitality caused by insufficient plant food in the soil. While there is no crop of bulbs on the island entirely free from the disease, yet we have less of it in our fields than any other grower, as we have always realized the importance of proper fertilization.

LILIAM HARRISII.

Henderson's ^{HIGH} GRADE

JAPAN EASTER LILY BULBS.

(*L. longiflorum* var. *Eximium*.)

	Doz	per 100	per 1000
Second Size Bulbs. (5 to 7 inches in circumference.)	\$0 35	\$2 50	\$22 00
First Size Bulbs. (7 to 9 inches in circumference.)	0 50	4 00	35 00
Extra Size Bulbs. (9 to 10 inches in circumference.)	0 75	5 75	55 00

These Japanese grown *Lilium Longiflorum* Bulbs are of great value for late winter forcing—the large trumpet-shaped snow white flowers, six to eight inches long, are of great substance and durability, and some florists prefer it to *Harrisii* for late winter forcing on this account; yet we think the cool, slower forcing is the reason of this.

"SILVER LEAF" EASTER LILY.

(*Lilium longiflorum* foliis alba marginatis.)

These make novel and elegant specimens as pot plants when well grown, and are particularly beautiful for Easter decoration on account of the foliage being distinctly striped with silvery white; in all other respects the plants and flowers are the same as *Lilium Longiflorum*. Every florist should try a few of these this winter.

Price, 20 cts. each; \$2.00 per doz; \$15.00 per 100.

WHAT FLORISTS THINK OF HENDERSON'S HIGH GRADE BERMUDA EASTER LILY BULBS.

From GEORGE M. EMMANS, Florist,
NEWTON, N. J.

The stock I got from you (season 1897) is doing much better than any I have had in the last three years, which were purchased elsewhere. Last year my bulbs turned out fully 40 per cent worthless; the year before 30 per cent, and the year before that 20 per cent., and I changed purchasing place on that account every year. This season I got my bulbs from you, and I am very much pleased with them. They are as fine a lot of plants as any one could wish to see. Trusting you may be able to keep your stock as free from disease in the future as the lot has turned out, I remain,
Yours very respectfully,
GEO. W. EMMANS.

From CHRIS BESOLD, Carnation Grower and
Florist.

MINEOLA, LONG ISLAND.

I do not hesitate to say that the lot of *Harrisii* I bought from you this season (1897) are the best I receive for a number of years. They are the nicest looking plants that I have seen anywhere, and I am glad that it is so, as this was the first time I got my *Harrisii* from you and which will assure you of getting further orders.

Yours very truly,
C. BESOLD.

From WM. F. LAUCH, Florist,
CARRICK, PA.

I have been growing your *Harrisii* bulbs for several years. Last season (1897) I divided my order, placing one-half with you and the other half with another prominent seedsman. Yours were the true Bermuda *Harrisii* while the others were badly mixed with a worthless variety which grew to enormous height with a very small flower. Your half were all of an even size with flowers of excellent quality. I had the honor of having the finest lilies in Pittsburgh from your bulbs. There were but few of your plants discarded—probably 50 in the whole batch of 6,000 bulbs. You will have my full order next season.
Yours truly,
W. F. LAUCH.

OUR NEW GOLD MEDAL ROSE, "JUBILEE."

(PLANTS ON THEIR OWN ROOTS.)

This grand Rose was shown on a colored plate in our spring catalogue. It was awarded the gold medal by the Massachusetts Horticultural Society, the only Rose to obtain that honor. It is the finest dark red hardy garden Rose yet produced. A pure red in its deepest tone, shading to deep crimson red and velvety maroon red in the depths of the petals. It fairly glows in its rich warmth of coloring and has a rich velvety finish, containing the darkest color combined with pure color of which nature is capable.

Price, strong plants from 5 inch pots, \$3.00 per doz., \$20.00 per 100. These plants are 2 years old, grown on their own roots.

NEW ROSE, MRS. ROBERT GARRETT, PLANTS ON THEIR OWN ROOTS.

A variety of American origin, therefore it is a certainty that it will prove to be adapted to our climate. It is equally valuable for winter forcing or summer blooming in the open ground.

It is difficult to describe this Rose; much of the coloring is due to its form and its semi-transparency, and is generated as it were in the Rose itself. Speaking broadly, the general color effect is a glowing shell-like pink. Price, 1st size, strong 2-year-old plants, from 5 inch pots, \$3.00 per doz., \$20.00 per 100; from 4 inch pots, \$2.00 per doz., \$15.00 per 100; from 3 inch pots, \$1.25 per doz., \$10.00 per 100; from 2 inch pots, \$1.00 per doz., \$6.00 per 100. Plants from open ground (ready Oct. 20th) \$2.00 doz., \$15.00 per 100.

THE CRIMSON RAMBLER.

This grand Rose improves upon acquaintance. The better it is known the more popular it becomes. The flowers are produced in trusses, pyramidal in shape, good specimens measuring nine inches from base to tip, and seven inches across. Price, plants from open ground (ready October 25th), \$1.50 per doz., \$12.00 per 100.

THE MEMORIAL ROSE. (ROSA WICHURIANA.)

The grandest plant for cemetery decoration in existence. It grows flat on the ground like an ivy, and blooms in grand abundance throughout July and intermittingly the balance of the season, pure white, sweetly fragrant flowers, with a golden yellow disc. It is perfectly hardy, and if planted this fall should bloom next season. Price, strong plants from open ground, \$1.50 per doz., \$10.00 per 100. Ready October 25th.

AZALEA INDICA.

(Fall Importation Ready About Oct. 15th.)

The Azaleas which we supplied last season were admitted to be the best value for the money ever received by the many florists who bought them, and we can promise as good, if not better stock and larger plants this coming season. We have again made special arrangements with the largest grower of Azaleas in Belgium, and take pleasure in offering for delivery about October 15th, **Indian Azaleas**, double and single, all named varieties, leading market kinds, shapely plants, well headed, at the prices quoted below. This is a specially low import offer both as to sizes and prices, and your early order is solicited. Azaleas are growing in favor yearly, as the great demand this season proved, and the shortage last Spring is sure to cause an increased demand next Spring.

DOUBLE GOLDEN MARGUERITE.

(*Anthemis Coronari, fl. pl.*)

Thousands of this valuable plant are now sold annually in the New York market, being so attractive when in bloom that it sells on sight. The flowers are clear golden yellow, it blooms without cessation the entire season; in winter as well as in summer it is ever covered with bloom. Each season's experience with this grand plant more than confirms the high opinion formed of it when first sent out. (See cut.) \$1.00 per doz.; \$6.00 per 100.

The leaves are a bright green, their lasting qualities when cut are remarkable, retaining their freshness for weeks. Price, strong plants from 2-inch pots, \$6.00 per 100; plants from 3-inch pots, \$10.00 per 100.

ASPARGUS SPRENGERII.

A desirable species, useful as a pot plant or for baskets; the fronds are frequently four feet long, a rich shade of green, retaining their freshness for weeks after being cut, A fine house plant, as it withstands dry atmosphere. Plants from 2-inch pots, \$8.00 per 100.

ASPARGUS TENUISSIMUS.

Very fine, filmy foliage. A handsome climbing plant for the window, and a very useful pot plant. Price, 3-inch pots, \$6.00 per 100.

PANDANUS UTILIS.

PANDANUS UTILIS.

For majesty of form and gracefully arranged foliage this is without a peer. As an ornament for the window its glossy dark green serrated foliage renders it unusually attractive, while as a vase plant or single specimen in greenhouse or conservatory it cannot be surpassed. Price, fine plants, from 7-inch pots, \$12.00 per doz.; 6-inch pots, \$9.00 per doz.; 2-inch pots, \$4.00 per 100, \$35.00 per 1000.

PANDANUS VEITCHII.

This is a grand decorative plant. Vivid green with creamy white variegation. Price, plants from 6-inch pots, \$1.50 each.

DRACÆNA FRAGRANS.

One of the finest of our ornamental-leaved plants; deep green, broad, gracefully drooping leaves. Our stock of this is fine and the price is low. Price, plants from 5-inch pots, \$4.50 per doz., \$35.00 per 100; from 4-inch pots, \$3.00 per doz., \$20.00 per 100.

KENTIA FORSTERIANA.

Dracæna Sanderiana.

Specially adapted for centers of jardinières, narrow foliage, variegated white and green. Plants from 4-inch pots, \$4.50 per doz.; 3-inch pots, \$3.00 per doz.

Dracæna Stricta-Grandis.

A finely colored variety, red, bronze and pink. 4-inch pots, 4cc. each, \$4.00 per doz.

Dracæna Terminalis.

Very ornamental foliage, bronzy green marked red and pink. 4-inch pots, 3cc. each, \$3.00 per doz.

Seaforthia Elegans.

Invaluable on account of its rapid growth and gracefully arched foliage. Price, plants from 5-inch pots, 20 to 24 inches high, \$6.00 per doz.; plants from 4-inch pots, \$3.00 per doz.

KENTIA BELMOREANA.

KENTIA BELMOREANA.

This is sometimes called the "Curly Palm" and is recognized as among the best for all purposes, being capable of standing more ill-usage perhaps than any other. The leaves have a tendency to curl as the plants grow older, hence its popular title of "Curly Palm." Our plants are of stout, stocky growth, and are sure to give satisfaction. Prices, plants from 7-inch pots, bushy, 3 plants in a pot, 18 to 20 inches high, \$2.50 each; same from 6-inch pots, lighter, \$2.00 each; from 5-inch pots, 20 to 24 inches high, single stems, \$1.00 each, \$10.00 per doz.; smaller grade, 15 to 18 inches high, 75c each, \$7.50 per doz.; from 4-inch pots, 12 to 15 inches, \$6.00 per doz.

KENTIA FORSTERIANA.

A taller growing variety than the above, with broader leaves, longer stems, and more sweep to the foliage. It makes a large plant in a shorter period and on that account as also for its truly majestic appearance it is greatly in demand. Price, plants from 7-inch pots, 3 plants in a pot, bushy specimens, 24 to 30 inches high, \$2.50 each; same from 6-inch pots, lighter, \$2.00 each; from 5-inch pots, single stems, 20 to 24 inches high, 75c each, \$7.50 per doz.; from 4-inch pots, 15 to 18 inches high, \$5.00 per doz.

LATANIA BORBONICA.

LATANIA BORBONICA.

This is the typical Palm, and is more largely used than any other. Its strong, healthy habit commends it to all, and gives it a fitness for window and room culture not possessed in the same degree perhaps by any other. (See cut.) Price, plants from 8-inch pots, \$2.00 each; 6-inch pots, \$9.00 per doz.; 5-inch pots, \$5.00 per doz.; 3-inch pots, \$8.00 per 100; 2-inch pots, \$4.00 per 100.

ARAUCARIA EXCELSA.

(NORFOLK ISLAND PINE.)

Various names have been suggested for this grand plant to properly convey to the mind the appearance of it. Some have called it the "Christmas Tree Palm" from its resemblance to a Christmas tree; others have called it the "Star Palm," because the leaves are arranged to form a perfect star, but no descriptive name can give any adequate idea of its beauty. For symmetry of form, grace and beauty of foliage, it is unequalled in the vegetable kingdom. (See cut.) Extra fine plants from cuttings, 24 to 30 inches high, \$3.00 each; 12 to 15 inches high, \$1.00 each, \$10.00 per doz.

ARAUCARIA EXCELSA

SINGLE WHITE PRIMROSE.

CHINESE PRIMROSES.

For winter flowers there is no more desirable plant than the Chinese Primrose. They are easily grown and flower incessantly throughout the winter. Our plants are raised from the finest seed, specially saved in a private establishment in Europe. All the Primulas offered are growing in 3-inch pots.

SPIRÆA, ANTHONY WATERER.

Perhaps no hardy plant of recent introduction combines so many good qualities as this. It is well adapted for edging shrubbery, forming as it does a low, bushy plant, rarely exceeding twelve inches. The flowers are of the richest carmine crimson, borne in dense, flat clusters in profusion from early summer to frost. It is valuable for pot culture. Price, 4-inch pots, ready Oct. 15, \$2.00 per doz.; \$15.00 per 100

VIOLET, MARIE LOUISE.

(Winter Flowering.)

The well known double purple variety. We offer strong healthy plants, so that any grower should have no difficulty in handling them. Price, \$1.00 per doz.; \$8.00 per 100.

HARDY ENGLISH VIOLET.

(Spring Blooming.)

This Violet is entirely hardy, perfectly double, a deep violet color and most deliciously fragrant. It surpasses the well-known "Marie Louise" Violet in richness of color, being many shades darker, and far excels it in its delightful odor; this is one of its greatest merits. (See cut.) Price, 1st size, large flowering clumps, \$2.00 per doz., \$14.00 per 100. 2d size, \$1.25 per doz., \$8.00 per 100.

SINGLE VIOLET, CALIFORNIA.

Large, deep purple, fragrant flowers. Large clumps, \$1.00 per doz.; \$8.00 per 100.

ASSORTED DOUBLE PETUNIAS, NAMED.

(Ready about October 1st.)

We offer a grand assortment propagated from cuttings which are fully up to our high standard. They embrace all shades and markings and are all beautifully fringed. Price, \$1.00 per doz.; \$8.00 per 100.

DWARF OTAHEITE ORANGE.

A dwarf Orange, which bears a profusion of fragrant flowers and edible fruit. One of the most effective plants for the house. Those we offer are strong plants, which will flower and bear fruit the coming season. Price, plants from 4-inch pots, \$2.00 per doz. (Ready Oct. 15.)

LARGE FLOWERING PANSIES.

We are growing this season a very fine strain of Pansy plants, largely yellow, with a fair mixture of purple, blue black, bronze, etc., from seed of our own saving, and can unhesitatingly recommend them either for winter or spring blooming. Price, plants from seed beds, \$1.00 per 100; \$7.50 per 1000. Transplanted plants ready Oct. 15th, \$2.00 per 100.

NEW HARDY-WHITE PINK. "Her Majesty."

This is one of the finest hardy pinks in any color yet raised, and cannot fail to please all lovers of fine flowers. It has become most popular, and is grown by the acre to supply the demand for cut flowers. Low-growing, with flowers of the purest white, as large as a Carnation and of rich clove fragrance. Price, large clumps, \$10.00 per 100.

SMILAX.

Familiar to every one. Easily grown if trained to strings or stakes. Strong plants from 3-inch pots, \$3.00 per 100; \$25.00 per 1000.

SWAINSONIA GALEGIFOLIA ALBA.

A plant which is becoming very popular for house culture. Foliage as graceful as an Acacia; flowers pure white, produced in sprays of 12 to 20 flowers each and resembling Sweet Peas. It is of the easiest culture and ever-blooming. Plants from 4-inch pots, \$1.25 per doz., \$10.00 per 100; 3-inch pots, 75c. per doz., \$6.00 per 100.

SWAINSONIA GALEGIFOLIA ROSEA.

A fine contrast to the above; rich, rosy red flowers. 4-inch pots, \$1.25 per doz., \$10.00 per 100; 3-inch pots, 75c. per doz., \$6.00 per 100

SELAGINELLA EMILIANA.

The best of the species for filling jardinières or growing as single specimens, it is exceedingly ornamental. Price, 3-inch pots, 75c. per doz., \$6.00 per 100; 4-inch pots, \$2.00 per doz., \$12.00 per 100.

NOTE.—We can furnish an assortment of Selaginellas from 2-inch pots at 75c. per doz.; \$4.00 per 100.

HENDERSON'S CREAM OF THE SWEET PEAS

are offered on next page, No. 34

Where there is also given a list of “discarded” varieties with the variety we recommend as a substitute.

THERE are too many so-called varieties of Sweet Peas offered to the public. Many of them are alike, or so nearly so that experts can scarcely distinguish them apart. The list of over one hundred varieties is being added to at the rate of a dozen or more annually, and we feel that it is time to commence culling out the older varieties that have been improved upon, the newer sorts that have reverted back or are not improvements, and the sorts that have been offered under different names by different firms, which we have proved at our trial grounds to be the same thing. There are, of course, many excellent sorts in our discarded list, but a counter part or an improvement has in all cases been retained; for instance, in the lavender section, Princess May, Countess Radnor and Celestial are all practically the same thing. We retained the latter because it has been tried up better to the pure lavender color. All other sections have had the same consideration.

An ounce of Sweet Peas contains about 300 seeds, enough to sow a single row 25 feet long, Our packets of all (excepting the novelties) are liberal, containing about 75 seeds, enough to sow a single row 6 feet long.

EMILY HENDERSON.

MISCELLANEOUS FARM SEEDS

FOR

Autumn Sowing.

TRUE DWARF ESSEX

English Rape.

Rape may be sown broadcast at the rate of 6 lbs. per acre, and harrowed in, or the land may be thoroughly harrowed and the seed sown in drills, 18 to 24 in. apart, at the rate of 2 to 3 lbs. per acre. Under favorable conditions it is ready for pasturing sheep or cattle within six weeks from time of sowing, and on an average one acre will carry twelve to fifteen sheep six weeks to two months. In the Northern States it should be sown from May to August for fall pasturing, but as it thrives best in cool weather, it should not be sown in the Southern States until September or October for winter pasture. Its fattening properties are probably twice as good as those of clover, and for sheep the feeding value of Rape excels all other plants we know of, fattening and putting them in excellent condition for marketing without the addition of grain or other purchased feeds. 10c. lb.; \$8.00 per 100 lb.

New Hardy Forage Plant, SAND or WINTER VETCH.

Succeeds on poor sandy soils, grows to a height of three or four feet and seems proof against both heat and cold and when sown in fall yields a crop early the following spring. If cut when in bloom it will yield a second crop which may be allowed to seed if desired. Sow half a bushel to a bushel per acre with one half bushel Rye or Wheat for support. 10c. lb., \$4.00 bushel of 60 lbs., \$6.00 per 100 lbs.

SCARLET CLOVER. (<i>Trifolium Incarnatum.</i>) 4.20	.10	7.00		

We have no hesitation in recommendation that all suitable lands from which crops have been harvested during the Summer and Fall should be sown with Scarlet Clover for plowing under the following Spring. Authorities who have made a careful estimate, state that plowing under a good crop of Scarlet Clover is equivalent to 20 tons of stable manure per acre, and even if the Clover be harvested or pastured, the benefits derived from the wonderful nitrogenous root formation will alone many times repay the cost of seed and labor. It is the cheapest source of nitrogen, and has revolutionized the methods of farming in many parts of the Eastern States. When sown in July and early in August, it has proved hardy in some seasons as far north as Michigan and Canada, but in the north a good plan is to top dress after sowing with some long manure or sowing a sprinkling of Rye as protection. In the latitude of New York time of sowing may extend from July 15th, to September 30th and further South even later. Sow 15 lbs per acre. Choice American grown new crop seed thoroughly re-cleaned and free from weed seeds.

Besides offering Grass Seeds and Clover by the lb., 100 lbs., and bushel, we give the standard weight per bushel.

HENDERSON'S SPECIAL GRASS MIXTURES.

" " " " " Pasture only. A mixture which will stand close cropping without injury. 100 lbs.	

To these mixtures, intended for either Mowing Lands or Pasture (but which on account of their greater weight should be sown separately), are to be added 10 lbs. of Mixed Clovers comprising White, Mammoth Perennial or Cow Grass, Alsike, Trefoil, etc., but these should only be sown in the spring, as they are rather tender in this latitude if sown in the fall. The quantity needed (10 lbs.) of MIXED CLOVER to sow an acre we will sell for \$2.00.

SOW "HENDERSON" LAWN GRASS SEED.

THIS
FALL.

AND HAVE A....

PERFECT LAWN

...EARLY NEXT SEASON.

THE "HENDERSON" LAWN GRASS SEED

Will form a close, thick turf in a few week's time; with no tendency to stool or grow in clumps. It roots deeply and withstands severe droughts without turning brown, maintaining its beautiful deep green color throughout the season. We have made the formation of permanent lawns a study for years, and **The Finest Lawns in this Country To-day were obtained by using The "Henderson" Lawn Grass Seed**, which is composed of various grasses that grow and flourish during different months of the year, so that a rich, deep green; velvety lawn is constantly maintained, rivaling the famous lawns of Old England.

If people only knew how comparatively easy it is to make a lawn with the "Henderson" Lawn Grass Seed, the days of using sod, with all the attendant expense, would soon be over.

The beautiful lawns at the World's Fair in Chicago we produced in six weeks' time with the "Henderson" Lawn Grass Seed. Not one of the charming features of the Exposition was so universally admired as our "setting of emerald velvet," which, notwithstanding the long continued drought of the summer, retained its verdure throughout the entire season. Besides being the only lawn grass seed granted a medal we exhibited the separated grasses used in the mixture, and received **Seven Awards** for superior quality and purity of samples.

THE "HENDERSON" LAWN GRASS SEED is relatively speaking, the cheapest seed offered, because, while the lawn grass mixtures of other seedsmen will not average over 14 lbs. to the bushel, this weighs from 20 to 21 lbs. per measured bushel.

THE QUANTITY REQUIRED.

The quantity required for making new lawns is 5 bushels per acre, or for renovating old lawns 1 to 2 bushels. For a plot 15 x 20, or 300 square feet, 1 quart is required for new, or 1 pint for renovating old lawns. Full printed instructions in every package and bag.

PRICES: Per qt. 20c, per peck. \$1.25.; per bush. \$4.50. (If by mail, add at the rate of 5c. per quart for postage.)

Henderson's....

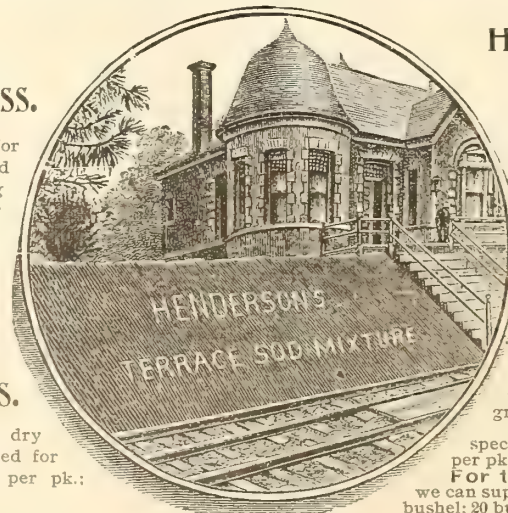

"TERRACE SOD" Lawn Grass.

A special mixture of grasses best suited for sowing on terraces, railroad embankments and side hills—grasses that produce strong, spreading roots, thus preventing heavy rains from washing them out, that will withstand drought and exposure, thrive on shallow soils, and at the same time produce a rich velvety green turf throughout the season.

Price, 30c. per qt.; \$1.75 per pk.; \$6.00 per bush.

"SUNNY SOUTH" Lawn Grass.

Specially prepared for the South or for very dry sections, and contains the best grasses adapted for hot, dry situations. Price, 30c. per qt.; \$1.75 per pk.; \$6.00 per bushel.

Henderson....

"SHADY NOOK" Lawn Grass.

On nearly all lawns there are unsightly bare spots under the shade of trees, which have baffled all efforts to get into grass, but with this mixture there need be no further difficulty.

Price, 30c. per qt.; \$1.75 per pk.; \$6.00 per bush.

Henderson....

"GOLF LINK" Grass Seed.

A mixture of grasses that will produce a sward equal to those of the "GOLF LINKS" of Scotland. While the outlying portions of the "Links" can be seeded with less expensive grasses, the "putting greens" for about twenty yards around the "holes" must be sown with the very finest grasses.

For Putting Greens, we can supply a special mixture of grasses. Price, 25c. per qt.; \$1.50 per pk.; \$5.00 per bushel.

For the Outlying Grounds or Fair Greens, we can supply a suitable mixture of grasses. Price, \$2.25 per bushel; 20 bushels and upwards, \$2.10 per bushel.

BURLAP HOT BED AND COLD FRAME MATS.

These are made of strong burlap bagging, warmly lined with waste wool and cotton which is quilted in to hold position. They are excellent substitutes for straw mats, being if anything, warmer than straw. More easily handled, less bulky, and they do not harbor mice or other vermin. We were afraid that they would hold moisture, and either rot or mildew, but our trial for two winters proves them to be far more durable than straw mats.

PRICES.

Size A—40 x 76 inches, 55c. each; \$6.00 per doz.
 Size B—76 x 76 " 85c. " 9.00 " "

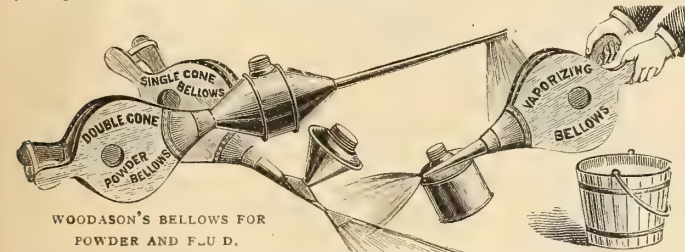

Water Proof Oil Duck Mats.

MASTICA FOR GLAZING.

Greenhouses, Sashes, Etc., new and old It is Elastic, Adhesive and easily applied; it is not affected by dampness, heat or cold.

MASTICA GLAZING MACHINE
\$1.25 Each

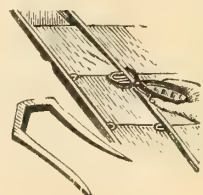

Every florist has experienced difficulty in obtaining putty (whether ordinary or white lead) for glazing, that is satisfactory for any length of time. The fact is, putty is not adapted for greenhouse work.

After much study, the inventor of "Mastica" decided that the composition must be of different material, and the qualities must be elastic and tenacious to admit of expansion and contraction without cracking. "Mastica," when applied, in a few hours forms a skin or film on the entire mass hermetically sealing the substance and preventing evaporation of the liquids, and remains in a soft, pliable and elastic condition for years. "Mastica" is of great value in going over old houses with a mastic machine on the outside of sash as it makes it perfectly tight and saves the expense of relaying the glass. One gallon is sufficient for about 300 lineal feet used either for bedding or over glazing.

Prices for Mastica, soft for machine application, 35c. per quart; 60c. per 1/2 gallon; \$1.00 per gallon.

VAN REYPER "PERFECT" GLAZING POINTS.

The finest glazing points on the market; the glass cannot slip; they are quick and easily put in with special pinners; no "rights and lefts" to bother with. Price, per box of 1,000 60c.; or by mail, 75c. Pincers, price per pair, 40c., or by mail, 50c

CHEAP GLAZING TOOL.

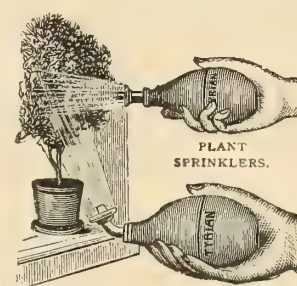

For the price this is very satisfactory little implement—cuts with a little steel wheel. Price, 6c. each; 65c. per doz. Postage 2c. each extra.

IMPROVED RUBBER PUTTY BULBS.

An excellent article for glazing. A pressure with the hand ejects the putty prepared as per directions accompanying each, and by running it along the sash bars the work is done quickly, and makes a durable tight and neat joint. Does not daub the glass nor stick to the hand.

Price, 75c. each; by mail, 85c. each.

RUBBER PLANT SPRINKLERS.

An Indispensable article for sprinkling cut flowers, seedlings, clothes, etc. A pressure on the bulb ejects the water in a fine spray.

PRICES.

Postage 10c. each extra.

Greenhouse Fumigators, FOR SMOKING PLANTS. PERFECTION FUMIGATORS.

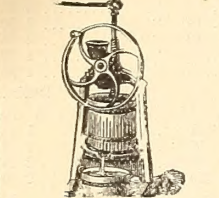

Make Moist Smoke.
This fumigator will last for years; it has a water tank between the fire and the outside, preventing burning out. The tank should be filled with tobacco water, from which a vapor arises and mixes with the dry smoke from the stems, producing a dampened smoke more dense and less injurious to delicate foliage than from any other fumigator made. Outside fumigating can also be done with the Perfection; the cast-iron lid is made so a hose can be attached, and all the outlets for the smoke (except through the hose) can be closed off. No. 1 holds one peck of stems, \$2.75; No. 2 holds half bushel of stems, \$3.50; No. 3 holds three-quarters bushel stems, \$4.25.

Our New Book. "INJURIOUS INSECTS AND PLANT DISEASES. WITH REMEDIES. Price, 25 Cents.

The CELEBRATED "Rose-Leaf" Insecticide. (Extract of Tobacco.)

ROSE LEAF EXTRACT OF TOBACCO. INSECTICIDE.

This insecticide has been now most thoroughly tested, and has been proven one of the most effectual articles ever used for the destruction of all insects and scale on plants, that did not injure in some degree the affected plants. Rose-Leaf Insecticide is a perfectly pure, highly concentrated extract of tobacco, always of uniform strength of nicotine. It can be applied in various ways, either spraying through a spraying bellows or syringe with spray nozzle, after it has been diluted with from 30 to 150 parts of water, according to the delicacy of the plants to be treated; it can also be used as a vapor, by boiling on small kerosene stoves or in "Evaporating Pans" attached to the pipes, or by the "Cylinder System," or by painting the pipes, etc., etc. Full instructions for the Various Methods of Applying, including many testimonials from our leading Florists, who have used it and state their methods of application, are given in our "Rose-Leaf" pamphlet, which will be mailed on application.
